

Region Commander Safety Message #8

Suspend Use Message Hand Grenade Simulators M116A1 (L601)

Effectively immediately, I am suspending the use of the M116A1 (L601) hand grenade simulator. This is due to reports of grenade simulator injuring personnel outside of safe zones, that it has malfunctioned with “no delay,” as well as “rocketed” the end cap into the leg of an individual.

A handwritten signature in black ink, appearing to read 'R. Frusha'.

ROBERT J. FRUSHA

COL, IN

Commanding
